Time to party with industry leaders, celebrate design and creativity while supporting education in our community!

The evening includes live jazz by Gaucho, casino games, complimentary wine + beer tasting (see below), raffle prizes and our annual costume contest.

Costume Theme: Urban Agenda

The Architectural Foundation of San Francisco is a non-profit educational organization. For decades, AFSF has been on the forefront of STE(A)M education. Our real-life project-based programs engender Bay Area place attachment in our students and build social resiliency and equity across our communities and beyond.

We engage students in professionally mentored appreciation of architecture, engineering, construction and the design process. We challenge students to observe, understand and participate in shaping their built environment. Our impact is broad and deep. We reach hundreds of students every year. Each student benefits from an average between 60 - 320 hours of direct contact, with 40% of that time spent with our professional mentors.

We look forward to celebrating with you!
