## Experienced Structural Engineer/Designer

We are a growing creative team of structural engineers and designers who enjoy working in a casual, fun office environment. We work with many of the Bay Area's top architectural firms focusing on a broad mix of project types including high end custom residential, education, civic, commercial, and institutional projects. We also have special expertise in earth retention/shoring systems. Project locations range from Northern to Southern California, to Napa Valley and Hawaii.

We are currently seeking an experienced Structural Designer/Engineer to join our dynamic team in Saratoga, CA. The hired candidate will join a multidisciplinary team engaged in the design of a variety of building projects.

### Primary job functions:

- Interact with clients
- Manage a team of engineers
- Perform structural engineering analysis and design
- Prepare and review drawings, engineering reports, and calculations
- Run projects through all phases
- Conduct periodic job site observations and other services as required

### Job qualifications

- Bachelors/Masters Degree in Civil/Structural Engineering
- California P.E. license required, S.E license preferred
- Minimum 5 years of relevant experience
- Building design experience
- Experience/ knowledge in designing and detailing in all materials
- Working knowledge of AutoCAD and Revit is highly desired
- Experience managing projects and other engineers
- Candidates must be proactive, have strong organizational skills, excellent written and verbal communication skills, team leadership skills, and be customer service oriented
