

Structural Designer (entry level/intern position)

At Daedalus Structural Engineering, located in the heart of Silicon Valley, we work with top architectural firms in the Bay Area and beyond, focusing on projects ranging from custom residential design up to 12-story mass timber towers.

We strive to integrate the structure with the overall architectural intent and constantly look for opportunities to challenge conventional thinking and traditional ways of engineering in search of more inspired design solutions.

We are always looking to meet curious, motivated Structural Designers who enjoy working in a team environment. Our ideal candidate has a growth mindset personally and professionally, is inquisitive and likes to think outside the box. AutoCAD and/or Revit knowledge is strongly recommended. Strong organizational skills as well as excellent written and verbal communication skills are a must. If you would like to learn more about how you might contribute to our team we'd love to hear from you.

Daedalus is an equal opportunity employer. In addition to a highly competitive salary and a full benefits package, other perks include an additional week off during the holidays, a profit sharing plan, a full benefits package, flex time, and the option to work remotely.

Interested candidates please submit cover letter and resume (PDF format) to employment1@daedalus-eng.com
