

Experienced Professional Engineer

Who we are

Daedalus is located in the Bay Area and partners with top-tier architects on projects ranging from high-end custom residences to 12-story mass timber towers, destination wineries and unique structures. Project locations range from northern to southern California and Napa Valley to Idaho, Utah, Wyoming and Hawaii. We strive to integrate a building's structure with the overall architectural intent and constantly look for opportunities to challenge conventional thinking and traditional ways of engineering in search of more inspired design solutions.

We are actively looking for an experienced Structural Engineer to join our team.

Primary Focus

Deliver cutting edge innovation and strive for flawless execution of all Daedalus Projects
"Innovate, Collaborate, Execute: Excellence in Every Daedalus Project"
